# INTRODUCTION

- Sex historian who has tracked pan sexual revolution 40 years: swimming in a sea of sexual sewage.
- I offer you my perspectives while realizing yours may seriously differ. That is just fine!
- Personal: Shared home and golden retriever with a gay victim of AIDS. Close bi friend's attachment. This is not about adults but about children.

THE REAL  
AGENDA: THE  
PSYCHO-  
SEXUAL  
FRONT OF  
CULTURAL  
MARXISM

- A key aspect is to encourage youngsters to 'explore' sex, gender and relationships via CSE [Comprehensive Sexuality Education].
- Many Establishment leaders have been duped by 'progressive' propaganda (traceable to Kinsey) to think it is either inevitable or a positive good!
- Sadly, they are the gatekeepers in the NHS, DfE etc
- On Side Insiders in these professions keep quiet while faith leaders ...

WHAT'S THE BEST NEWS  
YOU'VE EVER HEARD?

# TODAY'S GOALS: WE WILL GO WHERE OTHERS WILL NOT. WE WILL START TO EXPOSE

- Powerful, plausible-sounding but actually fraudulent claims.
- The discrimination and hypocrisy of the 'Progressives': they get away with it because On Side leaders let them.
- The minimized or ignored damages of CSE.
- The alarming loss of freedom to protest against it.

## TODAY'S GOALS: WE WILL

- Encourage 'little people'---us---to start to see we are not alone and have power.
- Encourage 'little people'---us---to put pressure on On Side leaders to wake up and engage in public.
- Promote a better story. We are the good sex, the good marriage, people and want the best for children, adults, singles, couples, families. We are the Good-for-People people.
- DO THE PSYCHOLOGY!

# CHRISTIAN MUM IZZY & MIRIAM GROSSMAN MD

# BBC'S ASSUMPTIONS

- Gay is the new black: Born gay.
- Everyone, and their lifestyles, must be included.
- These alternatives are good and healthy!
- To ensure everyone's well-being, we must not discriminate, because that hurts people.
- And those who hurt---'the haters'---deserve to be punished!

TAKING THE  
GLOVES OFF, ONE  
'ALL ABOUT ME',  
CSE PROGRAMME,  
IN 241  
WARWICKSHIRE  
SCHOOLS. FOR  
4YO CHILDREN.

# PRIVATE BODY PARTS

- ‘Shout out and name’ private body parts MOUTH; ANUS, PENIS (B) ANUS VULVA VAGINA (G). End goal: desensitisation to genitalia and sex; also focus on sexual pleasure. Pre-grooming for later oral, anal and vaginal sex?

## PRIVATE BODY PARTS II

- Brings sexual terms and imagery into the semi-public realm of the classroom; erodes natural modesty, lowers inhibitions and encourages sexual discussion.
- Will likely aggravate the incidents of already high child-on-child sexual assaults and numbers of sexually-active primary school children.
- See more below

## For your information should you need it to remind children of the rules about **self-stimulation.**

There are also rules about touching yourself too.

Now lots of people like to tickle or stroke themselves as it might feel nice. They might play with their hair, stroke their skin or they may even touch their private parts. This is really very normal. However, some people may get cross or say that it is dirty, especially when you touch your own privates.

This is strange as it is really very normal, however, it is not polite to do it when other people are about. It is something we should only do when we are alone, perhaps in the bath or shower or in bed, a bit like picking your nose, it is certainly not polite to do in class when everyone is watching.

# TAKING THE GLOVES OFF, TWO. ALL ABOUT ME. TEACHING 6 YO CHILDREN TO SELF STIMULATE [SS].

- Based upon Kinsey's unethical research from paedophiles who masturbated children from the age of 5 months and timed their responses with a watch.
- This 'research' has never been replicated (!) yet this entire CSE programme is based upon it: The Grand Con. Nor could such 'research' be ethically conducted!
- Those promoting these changes must demonstrate that such teaching is beneficial. The onus is on them.

- Father of the Sex Revolution, d. 1956.
- Kinsey's programme: The 'liberation' of sex from its repressive, ignorant, guilt-ridden past through 'science' and the promotion of happy, healthy, exciting sexuality beginning before birth. CSE is the vehicle by which Kinsey's views are taught to children often without parental knowledge and awareness.

- For Kinsey, 'all types of sexual activity---sex with the opposite sex, sex with the same sex, sex with both sexes, sex with children, sex with whips and chains, fisting sex, sex with animals---any kind of sex was normal and common [and good]', Dr Charles Socarides.

- Aided by mainstream media, sex addict Kinsey duped a gullible public with his scientific 'research'. Though promising health and happiness, it has led to various physical and social pathologies. His 'research' has not been replicated elsewhere: e.g. Table 34.

## EXAMPLES OF MULTIPLE ORGASMS (MALE REPORT, TABLE 34. P. 180)

Age	No. of Orgasms	Time Involved	Age	No. of Orgasms	Time Involved
5 mon	3	?	7 yr	7	3 hr
11 mon	10	1 hr	8 yr	8	2 hr
11 mon	14	38 min.	9 yr	7	68 min
2 yr	7	9 min.	10 yr	9	52 min
2 yr	11	65 min.	10 yr	14	24 hr
2.5 yr	4	2 min.	11 yr	11	1 hr
4 yr	6	5 min.	11 yr	19	1 hr
<b>4 yr</b>	<b>17</b>	<b>10 hr.</b>	12 yr	7	3 hr
<b>4 yr</b>	<b>26</b>	<b>24 hr.</b>	12 yr	3	3 min

# SELF STIMULATION

- Using Kinsey's 'research' on children is like asking rapists to report on women's sexuality.
- No child psychologist or educational theorist in the 20<sup>th</sup> C ever advocated sex for children (except Kinsey).
- It focuses on sexual pleasure as a RIGHT at all ages, which could lead to saying children can consent to sexual pleasure: paedophile heaven.

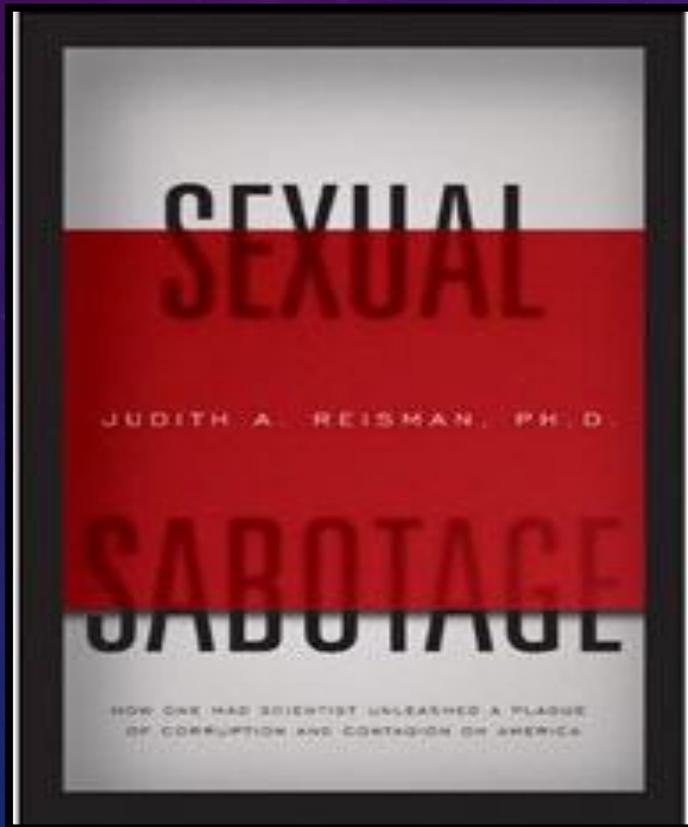

## SELF STIMULATION II

- It foregrounds and amplifies sex and sexual pleasure to physically-, mentally-, psychologically- and sexually-immature children.
- Children have other and far more pressing developmental tasks to master; SS can be addictive and deflect them from healthy development.

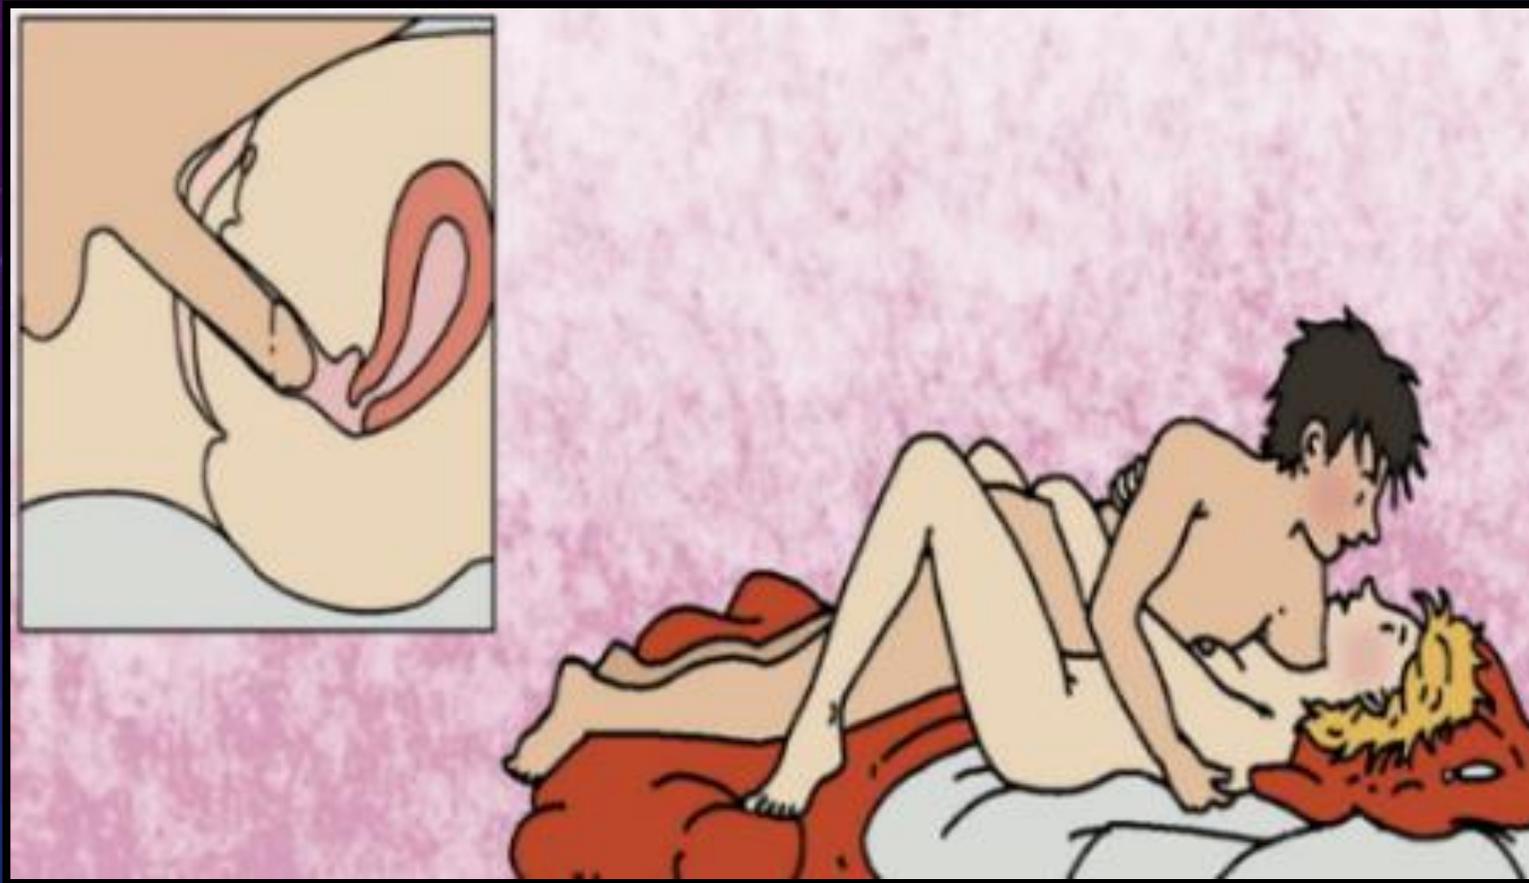

## SELF STIMULATION III

- One sign a child is being sexually abused is that they masturbate. If all children are taught to do it, it will make it harder to spot abuse.
- Strangers should not be teaching small children to masturbate; this raises massive safeguarding concerns.
- Could encourage children to experiment with each other: and why not, if both are up for it?

TAKING THE GLOVES OFF, THREE. SEX EDUCATION.  
'SPRING FEVER'. FOR 8-9 YO CHILDREN.

## FOUR PROBLEMS WITH THIS SEX EDUCATION

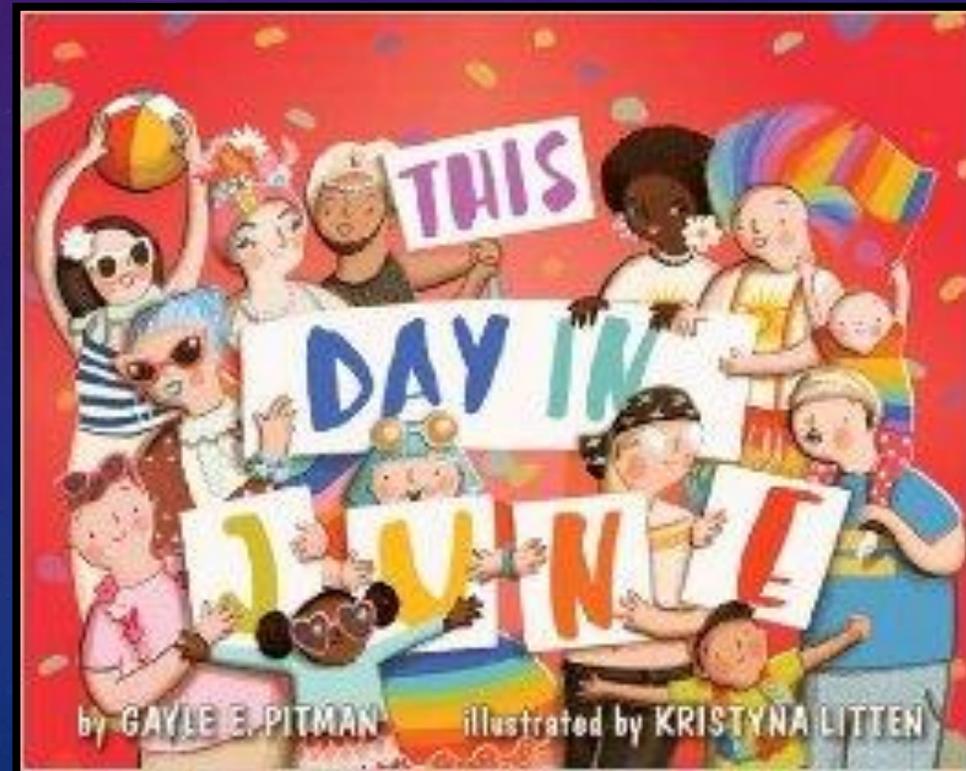

- Show & Tell: how paedophiles groom vulnerable children.
- ‘Mirror mechanism’: Show & Tell can lead to Go & Do.
- Next up for 8-9 YO children: videos of two males (or females) having sex: no discrimination now!
- The PSHE Association warned (2015) against ‘too much detail’ when teaching about self harm, as it could ‘trigger unhealthy responses’, but what about here?

# PRIDE: WHY ARE WE TEACHING CHILDREN ABOUT 'LEATHER'?

- 'Leather', or kink, is a sexual fetish with its own identity, community and high risk sex acts combining pain, power and sex (see Sexwise, below).
- Breaking taboos is important.
- The BACP, one of the main counselling associations in the UK, advocates for BDSM or kink.

# CSE FOR SECONDARY-AGED CHILDREN

## SECONDARY-AGED CHILDREN: SEX POSITIVE AND QUEER: LET'S CELEBRATE!

- The Age of Consent in the UK: legally 16, but 13 or increasingly down to 11 or lower if the sex is 'consensual' and involving minimal age differentials.
- According to Brook's 'traffic light tool', for 13- to 17-year-olds, 'normal' behaviour includes pornography and consensual oral or penetrative vaginal and/or anal sex with same or opposite sex partners.

SEXUAL BEHAVIOURS  
 TRAFFIC LIGHT TOOL

ANOTHER  
EXAMPLE OF PSHE  
CURRICULA FOR  
14S+

- 'Oh My---They do...That?... Some people like it, and here's a reason why: men have a gland called the prostate near the rectum. If they're on the receiving end of anal sex, this gland is stimulated, causing sexual pleasure. Some women enjoy it too.' (2001, 4, 6)

- Respect Yourself is part of an ever-growing lucrative sexual 'health' industry which connects school nurses, NHS sexual 'health' clinics, school PSHE classes etc.
- It received special commendation by the Department of Health's Health Visiting and School Nurse Programme (post 2012). Has been in dozens of schools in Warwickshire, Gloucestershire and Doncaster.

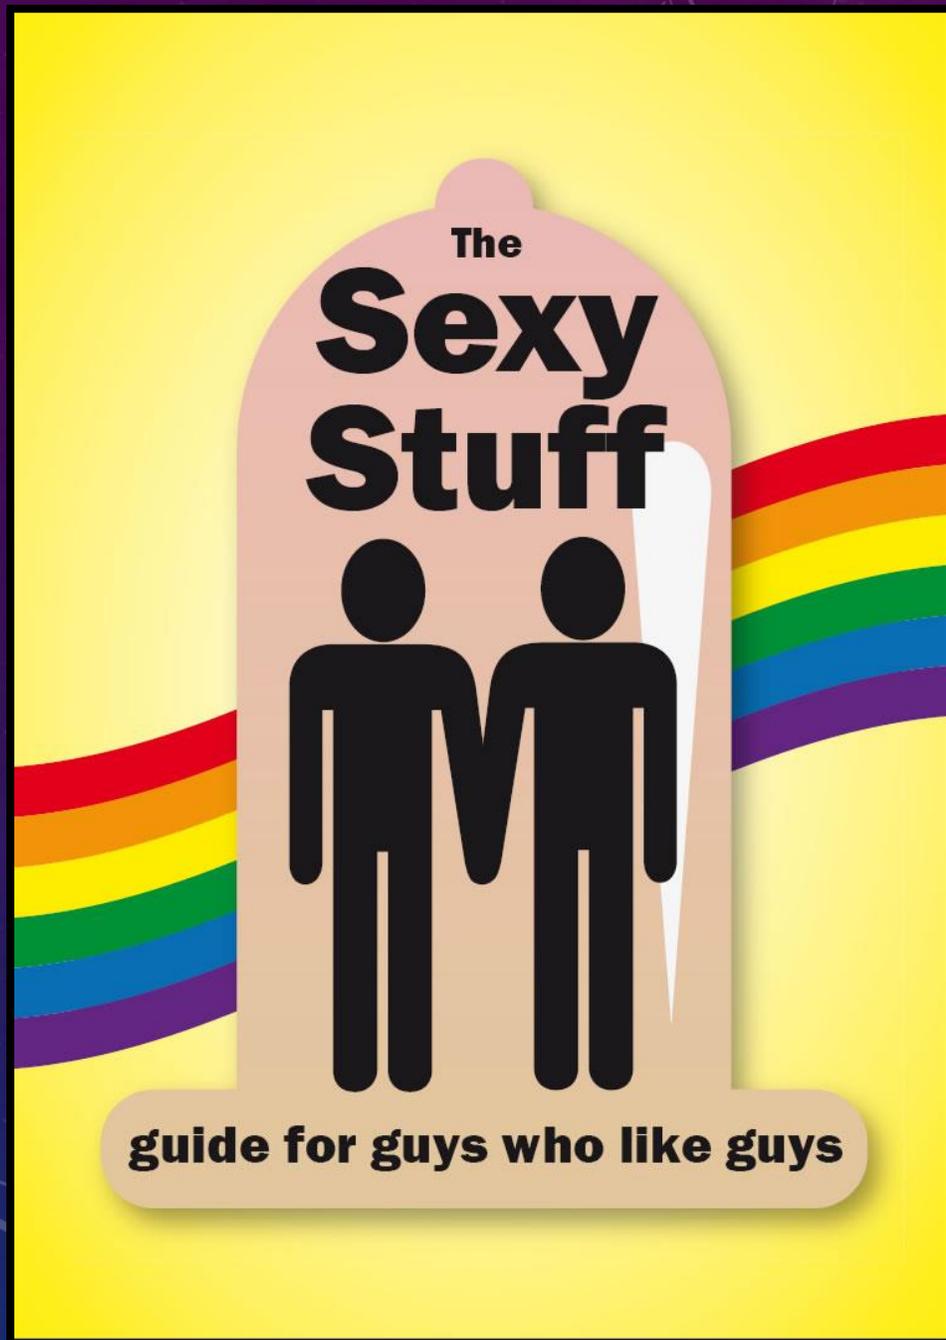

# HIGH QUALITY SEXUAL 'HEALTH' ADVICE: REALLY?

- 'Felching During sex, after a guy has ejaculated inside his partner leaving his semen inside them... either in their vagina or anus... felching is when you tidy up by licking and sucking your fluids back out of your partner...Sounds a bit icky and disgusting but then sex generally is...!'

‘Sunflowering. A more subtle and loving term for a sexual act like fisting. You insert five fingers inside your partner [‘s anus/rectum or vagina] and then open them up “like a sunflower”. Again this needs much care, patience and lube to ensure no harm is caused to your partner.’

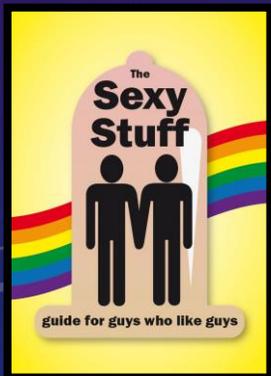

‘Scat is the fetish of being turned on by playing with your own or your partner’s faeces (poo).’

- From the NHS-endorsed 'Young Rainbows', a sexual health project for 13-19 YO's in Dorset. Funded by the National Lottery.

# Rimming

Rimming is when someone uses their mouth and tongue to explore someone else's bum. You might cringe at the very thought, but some people enjoy it. Some guys rim as it helps them to relax before penetration. It may be a good idea to prepare yourself before you get rimmed, and your partner\* may find this better too. You can do this just by having a wash or shower beforehand.'

## 'Something to get anal about...

Lots of people have anal sex and for many reasons; some do it as it feels like they can get really close to their partner\*, and some do it simply for pleasure.

You might hear guys saying they are a Top or they are a Bottom, or some even say they're Versatile – these are all preferred 'roles'. There are no rules as to which one you should choose to be, nor is there a rule to say you can't change your mind. It's all about preference and keeping yourself safe and happy.'

# SEXWISE PROMOTES EVEN WORSE CONTENT: FOR POST PUBERTAL CHILDREN AGE 13+. KINK.

- Heavy sadomasochism, whipping, bruising, being bitten; watching or starring in pornography; group sex; open air sex; rainbow showers (vomiting on one's partner).
- Theresa May's Conservative Government recommended Sexwise for schools in its Consultation Document on SRE last year.

HOW IS  
THIS  
HEALTHY?

# HOW IS THIS 'HEALTHY?'

- Increasingly females are engaging in anal sex, so the diseases and damage being seen in the MSM [men who have sex with men] community will appear there too.
- Even when MSMs use condoms, according to the **BMJ** (8 Aug 2015) HIV transmission was reduced by 64% while that of other STIs by 42%. How is that 'safe'?
- STIs overrepresented in the MSM community. 2% of the pop (ONS 2017). 43%\* of new HIV (2018); 65% increasingly-hard-to-treat new Gonorrhoea and 82% new Syphilis cases (2018).

OH DEAR, NOT VERY HEALTHY AFTER ALL!

- Other health issues for MSM according to the NHS Sandyford Protocols (Glasgow): MSM are at risk for Hep A (epidemic levels in places, often linked to anonymous/group sex); Hep B, also Hep C esp. for HIV+MSM; other infections like Shigella from anal-oral activity.

OH DEAR, NOT VERY HEALTHY AFTER ALL! II

- More from the Sandford Protocols. MSM : ‘Anal sphincter disruption. Symptoms: faecal leakage; moist seepage; not normally caused by anal sex unless **fisting**. Treatment: local measures – hygiene, incontinence aids [i.e nappies]; various surgical procedures, results often disappointing’.

# OH DEAR, NOT VERY HEALTHY AFTER ALL! III

- HIV+ MSM and anal cancer.
- The GMFA partners with the NHS and Public Health England.
- GMFA: Lots on MSM infections, also drugs. Poppers or drugs from the alkyl nitrite family used to relax the anal sphincter for easier sex: <https://www.gmfa.org.uk/poppers>
- There is much other roadkill, too, but who dares whistleblow?
