Silence in the face of evil is itself evil. Not to speak is to speak. Not to act is to act.
Attributed to Dietrich Bonhoeffer

‘Not saying’ says ‘Nothing should be said’, particularly by leaders. Note both what they say, but also what they will not say.

TODAY

- Our leaders are often mute and passive while activists increasingly ‘run the show’, aided by the former’s ambivalence, complacency, ignorance or despair.
- These issues are minefields but we must up our game and do what we can while we still can.
- Where necessary we agree to disagree. Most importantly, find those on your page, and start to connect and act!

- Focus today is on LGBT realities and RSE (Relationships and Sex Education); vital ex-LGBT ministry; and the psychology of communication across difference: RIR (Relationship, Issue, Relationship).
- What can we do? Think SMART: Specific, Measure-able, Achievable, Relevant, Time-bound. Also think long term, drip method, baby steps, RIR. Suggestions at the end.
- Finally, remember money talks! Are you supporting groups or organisations who support the values of people like you?

THIS POWERPOINT USES IMAGES OF FLOWERS, SYMBOLS OF GOD'S CREATION, HOPE AND LIFE, TO GIVE RELIEF FROM DARK, DEPRESSING CONTENT.

- Our kids are being taught they can safely play with fire, while the offices of doctors and therapists are filled with those who have been burned, inside and out. Miriam Grossman MD, adapted.

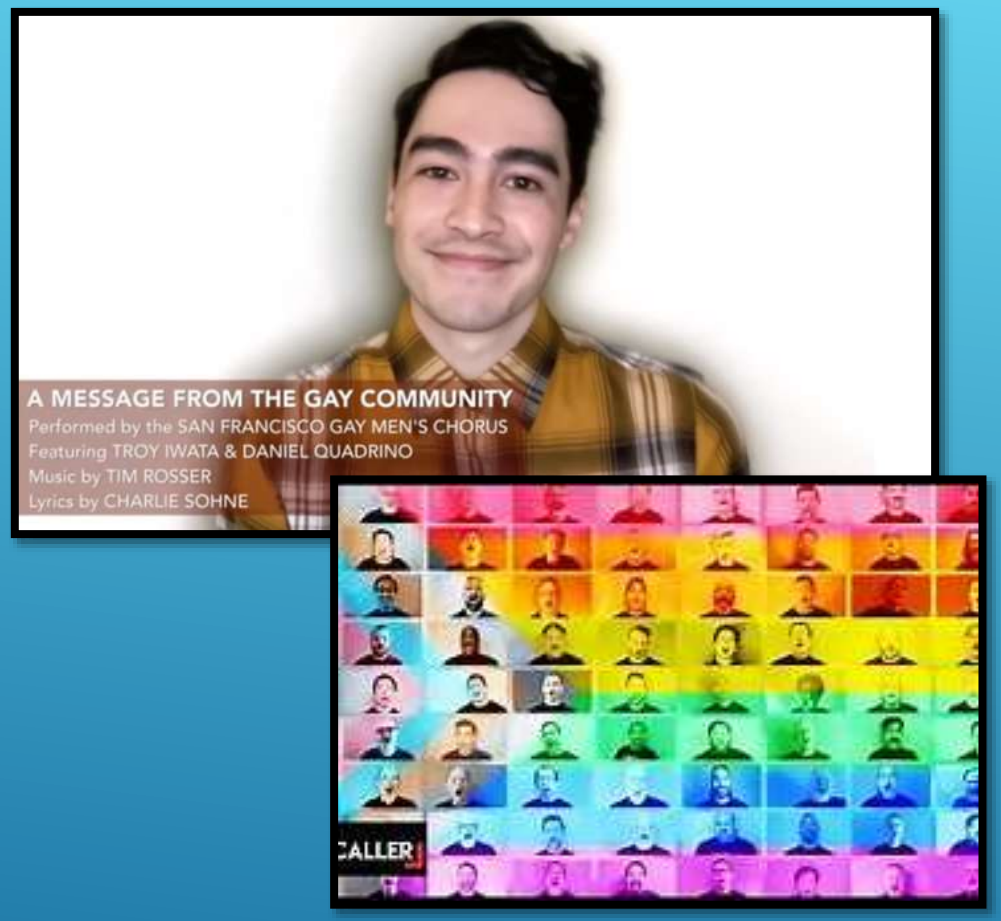
BISH



- ‘You think that we'll corrupt your kids if our agenda goes unchecked. Funny, just this once, you’re correct.
- We’ll convert your children, happens bit by bit, quietly and subtlety and you will barely notice it’.

TO THINK ABOUT

- Children are like wet cement. Whatever falls on them [leaves] an impression.
  Child psychologist Dr Haim Ginott

TO THINK ABOUT

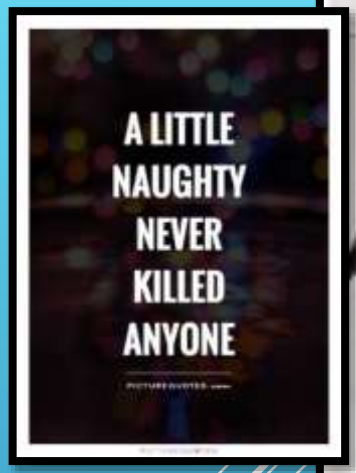
- We are the good sex people! Our kids need to know this. And we believe in good sex and relationship education, but much RSE is not that.

What we are up against:
Black propaganda

‘Everything interesting in life is illegal, immoral or fattening.’

Imaginary evil is romantic and varied; real evil is gloomy, monotonous, boring.

Imaginary good is boring; real good is always new, marvellous, intoxicating. Simone Weil



TO THINK ABOUT

- All sins are attempts to fill voids. Simone Weil

TO THINK ABOUT

- Evil people exploit good people by persuading them that it is wrong to call evil by its name. James Hitchcock

TO THINK ABOUT

- Christianity, with its claims … [which are] antithetical to omnicompetent government, must always in fact … be treated as an enemy [by the State].
- Like the family, like any ancient and liberal profession, like the common law, it gives the individual a standing ground against the State. CS Lewis

TO THINK ABOUT

- We have to feel the universe at once as an ogre's castle, to be stormed, and yet as our own cottage, to which we can return at evening. GK Chesterton

TO THINK ABOUT

- [Regarding totalitarianism] there may even be no visible dictator, only a system or a social philosophy which permeates and controls everything.
- [For] philosopher Josef Pieper … this is the most dangerous form of totalitarianism … *because it never appears to be what, in fact, it is* [italics added]. Michael O'Brien

TO THINK ABOUT

- I have met many ex-homosexuals --- but I have never met an ex-black.
  Black pastor Dr Ken Hutcherson

TO THINK ABOUT

- Sexual fluidity happens in both directions but this is being ignored. 1/2
- ONE From these studies*, what is clearly evident, is that most people who identify as SSA [same-sex attracted], are both-sex attracted. Those who identify as both-sex attracted, indicate their relationships are mostly with the opposite sex and that for many of them, their sexual attraction shifts or changes, mostly toward or to heterosexual.

TO THINK ABOUT

- Sexual fluidity happens in both directions but this is being ignored. 2/2
- TWO SSA is not a mirror image of OSA [opposite-sex attraction]. For the respective populations involved, OSA is overwhelmingly fixed. SSA is overwhelmingly fluid and most often comes with opposite-sex attraction too. Persons with both-sex attractions commonly experience fluidity in sexual attraction feelings and behaviour. https://iftcc.org/the-declaration-full-review-document/#4th

TO THINK ABOUT

- The great thing is to prevent his [the human being] doing anything … The more often he feels without acting, the less he will be ever able to act, and in the long run, the less he will be able to feel. CS Lewis

WHAT CAN WE DO? ONE

- Realize this is **not about us**. Though growing up is always hard, we were spared this mental madness which is targeting vulnerable, still-forming children, some of whom are being irreversibly, permanently damaged.
- Prepare to go through pain barriers and experience cognitive dissonance, loss of status, friends and exclusion by the ‘herds’ of your world.
- Consider where your investment is most effective: with **like minds** and **ambivalent sceptics,** who may be won over. Dismiss **intransigents**: they can’t hear you and it is wasted effort.
- Get into the head space of ambivalent sceptics. What do they need to hear from you to enable them to move closer to your position?

WHAT CAN WE DO? TWO

- Share emails or clips like Laurence Fox' #Groomed with like minds or more open-minded ambivalent sceptics. Post helpful stuff on FB etc
- Introduce good speakers/organisations to your church's leadership and ask for a meeting.
- Hold your faith leaders to account. What are they doing here? If nothing, **FUSS**, and if necessary, withhold funds, involvement and ultimately membership. Their silence and passivity allows this madness to continue.
- Their claims that 'this is not our remit; we just preach the Gospel!' etc. ignore the fact that Jesus had very strong words about those who harm children.

WHAT CAN WE DO? THREE

- Volunteer with groups who are already out there and pushing back.
- Attend events, invite others to join you!
- Start your own group to meet two/three times a year for networking, support, resources, and prayer.
- Set up a WA prayer group with like minds to pray.
- Have a dessert evening where you show clips and raise awareness.
- Run a coffee morning to raise funds and awareness.
- Be an ambassador/bridge builder to potential like-minded allies.
- Pray!

DID YOU KNOW? MORE CONTENT (SOURCES AT END)

DID YOU KNOW? ONE

- Alfred Kinsey, Father of the Sex Revolution (and quasi-impotent sex addict and voyeur) was a masochist. Masochists need pain to climax.
- This helps account for his 'research' asserting 'children are sexual beings'. Paedophiles masturbated hundreds of screaming children (see 'War on Children' resource) and submitted their 'data' to Kinsey. His never-replicated 'findings' have become authoritative.
- Toxic RSE is tacitly based upon this foundational 'research'.
- No child developmental theorist in the 20th Century (except Kinsey) advocated sex for children, and let alone adult sex acts with children.

DID YOU KNOW? TWO

Stonewall both tacitly and overtly claims full inclusion, and thus the moral high ground. But it excludes more extreme minorities. The public is not ready …yet.

Do we want our children taught to celebrate not only LGBTQ+ but

- NOMAPs (non offending minor attracted people AKA paedophiles);
- polys (polyamorists, those in simultaneous plural partnerships);
- GSAs (Genetic Sexual Attraction, a form of incest) and others.
- Most use identical talking points to the LGBT, some are ‘the new gays’.

If not, it is time to start talking about these other minorities and how Stonewall ‘discriminates’. If it does so can we!

DID YOU KNOW? TWO

- Gay history shows that liberation comes in steps. First gay relationships had to be accepted as legitimate and non-criminal. Once that occurred, then gay marriage followed. I think our [poly] normalization will follow the same course. Canadian poly leader John Ince

DID YOU KNOW? THREE

Teen pregnancy and STI/STDs rates have decreased, though recent data is anomalous. Emergency contraception is widely dispensed.

15-24 YO males are 3 times, and 15-24 YO females 6 times more likely to be diagnosed with an STI than their adult counterparts. (PHE 2020)

However, negative outcomes for sexually active youngsters include:

Association with increased risk-taking, drugs, crime, likelihood of dating violence, rape; poorer emotional health, lower-self esteem, depression.

NB: Between 2016/7 and 2018/9, child-on-child sex abuse cases reportedly doubled; 10% involved perpetrators 10 years of age or younger. (PP 2021)

DID YOU KNOW? FOUR

- MSM [Men who have Sex with Men] research reveals the serious risks in anal sex, associated diseases and damage. See Sandyford Protocols (2015), though its 2020 Protocols remove this information.
- Even when MSMs use condoms, the *BMJ* (8 Aug 2015, p 26) claimed HIV transmission was reduced by 64%, and other STIs by 42%.
- STIs/STDs are overrepresented in the MSM community. 2.9% (ONS 2019) of the pop., 41% of new HIV (Terrence Higgins 2019); 67% increasingly-hard-to-treat new Gonorrhoea and 83% new Syphilis cases (PHE 2020).
- Why do 'Sex Lists' and Bish (above) positively promote it to kids?
